## From the idea to the product – in 5 days?!

Imagine: your packaging design as easy as ordering pizza

**Small edition.  
Big impact.**

With our fully printed pouches, you too can unleash your full advertising impact. We also print in very small runs.

**NUT MIX**  
150 gramm  
Lorem ipsum dolor sit amet, consetetur adipisicing.

The image shows a stand-up pouch for 'NUT MIX' against a yellow background. The pouch is divided into two main color sections: a dark green top half and a light green bottom half. The top half features the text 'NUT MIX' in large white letters, with '150 gramm' below it. Below the text is a small image of various nuts. The bottom half of the pouch is light green and features a large image of a nut branch with leaves. The pouch is shown standing upright on a yellow surface.

No more long processes and sweaty hands when you have to send print data. With adelmo, you can create and order your stand-up pouch with the motif of your choice in just 5 minutes. How? Thanks to our 3D configurator you can easily create your individual design online and see in the live preview how your stand-up pouch will look like. You already have a print file? No problem. You can upload it in the configurator.

Your order will then be sent to one of our adelmo partners. They produce your pouches locally and in the best quality, so that you can have them in your hands in just 5 days thanks to short supply chains. Fast. Simple. Guaranteed. You've never experienced packaging design like this before!

## Outstanding products, outstanding packaging

Our experience with different industries is your advantage

We put your product in the spotlight, because strong products deserve strong packaging. Whether for tea & coffee, food supplements, snacks, herbs & spices, pet food or non-food sectors such as cosmetics and agriculture, our stand-up pouches are always the right choice. They offer the best aroma and oxygen protection, are light- and waterproof and reclosable.

With our pouches, you can increase the value and visibility of your product while reducing your environmental impact. We have developed a mono-material that can be recycled, unlike many other types of packaging. And at the same time it is lighter than glass and metal packaging. This significantly reduces transport costs - not only an advantage for you, but also for the environment!
